Quality

- Manufactured to BS EN ISO 9001-2015
- Complies with all relevant Building Regulations
- Meets all relevant British Standards

Material and Colour Choice

- Manufactured from hot pressed glass reinforced plastic (GRP)
- Available in white only

Installation Advice

- This meter box should only be fitted by a suitably qualified person
- Minimum wall cut out of 715mm x 485mm required
- Build the box into the wall in the position specified, ensuring it does not bridge the damp proof course
- The base and sides of the box should be fully bedded into the mortar to hold it into the wall with the sides of the architrave touching the outer leaf of the brickwork
- A suitable Timloc cavity tray should be fitted as a damp proof course above and behind the box.
- Where a spigot is fitted, build the inner wall around it, filling any space between the spigot and the wall with mortar

Dimensions

- Overall: 794mm x 565mm x 180mm (H x W x D)

Product Codes

Description	Colour	Box Quantity	Pack Quantity	Lead Time	Product Code
