

HIP CLIPS

DATASHEET

Mechanically secure and support hip and cut tiles to the roof structure

Use

- Most types of slate, concrete or clay hip tiles.
- Round or angled hip tiles.
- Most pitched roof types from 15-55°.
- New build and retro-fit projects.

Features & Benefits

- For mechanically fixing small cut tiles along the length of the hip, which are vulnerable damage from wind up lift.
- Available in short and long clip options to suit various tile types and to secure smaller tile cuts along the hip.
- Short tile clips - to hold the cut tile along the hip where it meets the adjacent tile.
- Long tile clips - to hold the cut tile along the hip from the base of the tile.

Quality

- Helping to meet BS 5534 Code of practice for slating and tiling.
- Complies with NHBC – Fixing slates and tiles.
- Complies with all other relevant regulations and standards.

Product Codes

Description	Colour	Pack Quantity	Lead Time	Product Codes
20 x short & 20 x long hip clips	Silver	1	Next Working Day	44630

How to Order

- To be used in conjunction with Timloc Hip Trays. Allow for a minimum hip tray overlap of at least 150mm onto the next tray.

Material & Colour

- Aluminum.
- Silver.

Dimensions

- Short clips – 31.5mm x 9.55mm x 33.5mm (H x W x L)
- Long clips – 29.4mm x 9.55mm x 162mm (H x W x L)
